

1. Servizio di secondo livello. Un esempio
2. I servizi residenziali e semiresidenziali nella L.R. 6/06

3.

4. Engage with Your Textbook.

Digital Textbook

Whether using a digital or hardcopy, determine ways to engage with your textbook. How do you engage with a textbook? Here are a few ideas. Annotate notes in the margins about your take-aways, reactions to, and understanding of the reading. Do not assume definitions of words you are not familiar with, but look up the definition(s) and write these in the margin near the word's location. Highlight information that you may need to study further through other means, such as looking up resources through the library, locating videos with instruction that elaborates on the topic, or use for discussion during question/answer portions of your classes. These methods enable you to engage with the text and better absorb the course information.

4. Cosa indica il termine "login"?
L'avvio del computer
La procedura di accesso a un sistema informatico
La navigazione anonima in Internet
5. Cosa è un malware?
Un software con intento dannoso
Un programma per creare presentazioni
