Preview.

You may choose to use preview, insider, beta or other pre-release versions of the software ("previews") that Microsoft may make available. You may use previews only up to the software's expiration date and so long as you comply with all the terms of this agreement. Previews are experimental and may be substantially different from the commercially released version. Notwithstanding anything to the contrary in this agreement, previews are provided "AS IS," and no warranty, implied or express (including the Limited Warranty), applies to these versions. By installing previews on your device, you may void or impact your device warranty and may not be entitled to support from the manufacturer of your device or network operator, if applicable. Microsoft is not responsible for any damage thereby caused to you. Microsoft may not provide support services for previews. If you provide Microsoft comments, suggestions or other feedback about the preview ("submission"), you grant Microsoft and its partners rights to use the submission in any way and for any purpose.
