3. Maid, a Netflix series gaining enormous acclaim, offers a superb starting point—for social workers, practitioners, and the general public—for necessary, authentic examination of domestic abuse and violence. The engrossing drama is a fictionalized account of the suffering, grit, and determination of a young mother, Alex, played by the multi-talented Margaret Qualley, and supported by a skilled supporting cast. The opening scene highlights Alex's dangerous middle-of-the-night escape from an abusive relationship, clutching her 3-year-old daughter, Maddy, played by the endearing Rylea Nevaeh Whittet in her first film. Alex has \$18.00 to her name, a battered car, and a future devoid of secure love and safety.

Maid is one story. However, as social workers, we know that people of all ages, races, genders, and range of socioeconomic opportunity experience the brutality and ravages of domestic violence.
